Welcome

I believe that the majority of the students at COM are interested in continuing their education beyond the Mainland. This column is intended to provide an informal way for students to share their thoughts and experiences on campus. If you have any comments or suggestions, please feel free to contact me at the Student Union Building or via email at comments@com.edu.

Welcome to the Student Center!

The Student Center is a great place to hang out and meet other students. It has a variety of facilities including a gym, a study room, a lounge, and a coffee shop. The Student Center is open from 8 AM to 9 PM Monday through Friday and 10 AM to 2 PM on Saturdays. I encourage all students to take advantage of the facilities provided by the Student Center.

Student Assembly

The Student Assembly is responsible for the approval of the Student Fee Plans. The Fee Plans are used to fund the Student Center and other student services on campus. The Student Assembly meets monthly and any student can attend. If you have any questions or suggestions, please feel free to contact the Student Assembly at assembly@com.edu.

Student Life

The Student Life Office is located in the Student Center. They provide information on community events, campus events, and local events. They also have a calendar of events posted on the Student Center bulletin board. I encourage all students to check out the Student Life Office for information on upcoming events.

Welcome to the College of the Mainland!

The College of the Mainland is committed to providing a quality education to all students. The college has a variety of programs and courses to meet the needs of its students. The college also has a strong emphasis on community service and students are encouraged to participate in community service projects.

The Library

The Mainland Library is a great resource for students. It has a large collection of books, periodicals, and other materials. The library is open from 8 AM to 9 PM Monday through Friday and 10 AM to 2 PM on Saturdays. The library also has a research center and a computer lab. I encourage all students to take advantage of the resources provided by the Mainland Library.

The Student Union

The Student Union is a great place to relax and socialize with other students. It has a variety of facilities including a gym, a study room, a lounge, and a coffee shop. The Student Union is open from 8 AM to 9 PM Monday through Friday and 10 AM to 2 PM on Saturdays. I encourage all students to take advantage of the facilities provided by the Student Union.
**Phi Theta Kappa Plans For Coming Semester**

Since 1948, Phi Theta Kappa has provided opportunities for the development of leadership and service, and for academic excellence. In this goal, Phi Theta Kappa is sponsoring the "bring fresh meat" movement.

The president of the party, who has a keg in the beginning of each semester, invites all members to gather for a social event. This event is a symbol of unity and camaraderie among the members of the society.

If you are a freshman or sophomore and you are planning to major in a career that requires a large amount of science courses, you may want to take a class called "Science and Mathematics." This is a class that is offered by the College of the Mainland.

The class is designed to give students an introduction to the sciences and mathematics. It is also designed to provide a foundation for students who are planning to major in a science or mathematics discipline.

**New Careers Offered At COM**

Exciting new careers are being offered at COM. The college has added several new courses that will prepare students for careers in fields such as computer science, engineering, and business.

**COM THEATER-ALA DCAPO PLAYERS**

The College of the Mainland Theatre began last year under the direction of Mr. Paulman. High points of the year included a notable production of "The Three Men." This production included a talented cast that included persons from the community and the college.

**INTERCOM Meeting**

A meeting will be held for those who are interested in joining Phi Theta Kappa. This meeting will be held at the Student Union at 10:00 a.m. on October 1.

**Parking Available**

Parking is available near the school on campus for those who wish to attend the meeting.

**SUPPORT YOUR SCHOOL GOVERNMENT**

As student government officers, we are proud to announce that we have received a donation from the Student Government Association. This donation will be used to support the college's student activities.

**Summer Registration**

A 30% increase in College of the Mainland's summer registration fees will be effective this year. The increase is due to the rising costs of operating the college.

**Student Orientation**

On September 9, an orientation program will be held for new students. This program will include an introduction to the college's resources and services.

**Karate Club Now Accepting Members**

The Karate Club is now accepting new members. This club offers an opportunity for students to learn the art of karate and to develop physical fitness.

**Future Secretaries**

A new club called Future Secretaries is being formed at the college. The club will provide an opportunity for students to learn the skills necessary to become effective secretaries.

**Support Your School Government**

As your student government officers, we would like to encourage you to become involved in your school government. There are many opportunities to make a difference in the college community.

Phi Theta Kappa Plans

For Coming Semester

Since 1939, Phi Theta Kappa, the national honor society for two-year colleges, has provided the highest recognition of academic excellence at two-year colleges. As stated in its Constitution, the purpose of Phi Theta Kappa is "to recognize and promote excellence in two-year collegiate achievement as the only national honor society for two-year colleges." Phi Theta Kappa, therefore, provides opportunities for the development of leadership and service, as well as academic excellence.

Membership is conferred on the basis of twelve hours of college work leading to a two-year degree, or on the basis of a high school diploma and a minimum of ten years of work experience, or on the basis of a high school diploma and the completion of an Associate in Arts degree.

Membership in Phi Theta Kappa is open to any student who has at least nine academic semester hours of college credit with a grade point average of at least 3.2, or to any student who has a two-year Associate in Arts degree from a two-year college in the United States.

Phi Theta Kappa is the new name for the "Silver Key" society.

How dirty is your car? Is it a little dusty or is it a real mess?

The answer to this question will vary from person to person. Some people may be able to keep their car clean for weeks or months, while others may have trouble even keeping it尘土-free. There are a few tips that can help you keep your car clean.

First, it's important to wash your car regularly. This will help remove dirt and debris that can build up on the surface of your car and cause damage over time. You should wash your car at least once a week, or more often in very dusty or rainy conditions.

Second, make sure to dry your car thoroughly after washing it. This will help prevent water spots and other damage that can occur if your car is left wet.

Finally, consider using a protective product to help keep your car clean. These products work by forming a barrier on the surface of your car, which helps repel dirt and water.

By following these tips, you can help keep your car looking its best and extend its life.

Welcome

This issue of the interCOM is a welcome. As a welcome to the new students and a welcome to those who are returning to continue your studies and keep the family, welcome back.

In this period of uncertainty, the College of the Mainland has communicated many details in an effort to serve all of our new student colleagues. As old friends and colleagues return, we look forward to continuing to serve you and your family, welcome back.

President

Linda J. Bungo, Dean

COM has had the opportunity to take a step back and re-examine our grading system. We are excited to announce that we will be changing our grading system for the fall semester. The new grading system will be used for all courses offered during the fall semester.

The new grading system will be based on a four-point scale, where A minus is the highest grade and D plus is the lowest grade. Grades of F will no longer be given.

There are several key changes to the new grading system:

1. A student who earns an A minus will receive a grade of 3.5 on a 4.0 scale.
2. A student who earns a B minus will receive a grade of 3.2 on a 4.0 scale.
3. A student who earns a C minus will receive a grade of 2.0 on a 4.0 scale.
4. A student who earns a D plus will receive a grade of 1.5 on a 4.0 scale.
5. A student who earns an F will receive a grade of 0.0 on a 4.0 scale.

In addition to the new grading system, we are also implementing a new grading system for non-credit courses. The new grading system for non-credit courses will be based on a three-point scale, where A minus is the highest grade and C is the lowest grade.

Learning

The library has printed a new edition of the 'Welcome to COM' booklet. The booklet is available in the library and on the interCOM website.

The booklet contains information about the library, its resources, and how to use them. It also includes a guide to the library's online databases and how to access them.

In addition to the booklet, the library has also created a new website that provides access to all of its resources. The website is available at www.comlibrary.org.

Pledge

The First Student Body Senate has announced a new pledge for new students. The pledge is as follows:

"I pledge to respect the rights of all students and to uphold the values of the College of the Mainland. I will work together with my peers to create a positive and productive learning environment."

The pledge will be administered during the fall semester and is open to all new students.

Grading System

In order to fully understand the student grading policy of the College of the Mainland, it is important to understand the grading system used for all courses offered.

The grading system used for all courses offered is a four-point system, where A minus is the highest grade and D plus is the lowest grade. Grades of F will no longer be given.

In addition to the four-point system, the College of the Mainland also offers a non-credit grading system for non-credit courses. The non-credit grading system is based on a three-point scale, where A minus is the highest grade and C is the lowest grade.

The non-credit grading system is used for all non-credit courses offered by the College of the Mainland.

In order to better serve our students and improve our grading system, the College of the Mainland has implemented several changes to the grading system.

First, the College of the Mainland has eliminated the use of grades of F for non-credit courses. Grades of F will no longer be given for non-credit courses.

No Generation Gap... Interview with Dr. Stallworth

Editor's Note: The following article is an excerpt from an interview held at COM. It was conducted by John of two.

by John first of two.

Do you know of anyone who was teaching COM before I came here? I have been in higher education since 1963. The first college I taught in was California State College at Los Angeles. I was there before I married. My husband, John Calhoun, was teaching there. He is a very good teacher.

Do you have any advice for those who are in the process of choosing a career in teaching? The first thing I would say is that teaching is a very rewarding career. I have had a great deal of satisfaction from teaching. I enjoy teaching and I enjoy helping students learn.

What are some of the qualities that you look for in a good teacher? I look for teacher's who are enthusiastic, who are passionate about teaching, and who are willing to put in the time and effort to make their students successful.

What are some of the challenges that teachers face today? One of the biggest challenges that teachers face today is the diversity of their students. Teachers have to be able to work with students from different cultural backgrounds and different learning styles.

How do you think technology has changed the way that teachers teach? Technology has made it easier for teachers to plan and deliver lessons. It has also made it easier for students to access information and resources.

I think that good teachers make a difference in the lives of their students. They can inspire students to learn and to think critically.

What is your advice for students who are considering a career in education? I would advise them to think about teaching as a career. It is a very rewarding career and it can be very fulfilling. I would also advise them to consider getting a master's degree in education, as it can make them more competitive in the job market.

I want to thank you for your time today. It has been a pleasure getting to know you and learning about your experiences as a teacher.

Thank you for your time as well. It has been a pleasure sharing my experiences with you.

The College's Computer

By CHARLES MASSEY

The college's computer system is used for a variety of purposes. It is used for research, for teaching, and for administrative tasks.

History of Computers

The history of computers goes back to the early 1900s. The first computers were built in the 1930s and 1940s. They were large and expensive, but they were the first computers to be able to perform calculations automatically.

The computer has had a significant impact on society. It has revolutionized the way that we work and the way that we live. It has made it possible for people to do things that were once thought to be impossible.

The future of computers is still uncertain. It is possible that they will continue to play a significant role in our society. It is also possible that they will be replaced by artificial intelligence or some other technology.

I hope that you have found this article interesting. If you would like to learn more about computers, I recommend reading some of the books that are available on the subject.

Thank you for your time today. It has been a pleasure sharing my thoughts with you.

The new issue of InterCOM will be available soon. It will be published every other month. If you would like to subscribe, please contact the InterCOM office.

Landing Project Started for New Campus

People are greatly interested in the landing project of "new" campus. Several teams have been working on this project for quite some time. They are currently in the planning stages, and many students and faculty members are excited about the possibility of a new campus.

Some of the challenges that the teams are facing include finding funding, securing permission from the city, and finding a suitable location. The teams are currently working on a proposal to present to the city council, and they hope to have this proposal completed by the end of the month.

I hope that you have found this article interesting. If you would like to learn more about the landing project, I recommend checking out the teams' progress on the college website.

Editor's Note:

The following article is an interview with Dr. Stallworth. It was conducted by Mike Noonan and Steve Knowles. This interview is the first of two.

If there was one thing you could change at College of the Mainland, what would that one thing be?

I think that all possible barriers to admission to COM would be abolished as many barriers as possible.

If you had a single word to describe your children, what would it be?

Well, there is a singular word, and that is "development," and that would mean something very important for the students.

Do you know of any people who are writing articles or producing COM commercials, and who you think could provide guidance for his children?

The concern is demonstrable, in other hand, we would be reaching every child in this way benefit.

If there will be a time when this doesn't happen in families like this, will we see a day when this won't happen?

Therefore, we would be reaching every child in this way benefit.

The editorial policy of COM would like to seriously consider, then to help enough?

So there will be a lot of pride for them in the future.

What is the main reason for writing this?

Well, then, that's the main reason for writing this.

If there is a particular post, we will actually sit down and consider it one to be proud of. Every faculty and staff make it one to be proud of. Every faculty and staff make it one to be proud of.

An I for A...

One of the most unique aspects of COM is its grading system. From my experiences in college, I have found it necessary to make an I contract to those who need one. And until it has been done, I think the grade of I does not mean an incomplete. When a student has found it necessary to make an I contract should not be able to receive a grade of A or B. If they are A students they should be able to meet the objectives within the prescribed period of time. The argument that it is merely a numerical representation of the student's ability is merely a numerical representation of time to complete the course he has taken the I in. However, if they have completed the course and have found it necessary to make an I contract, they should not be able to receive a grade of A or B.

WHAT IS THE PURPOSE OF THIS SCHOOL?
The purpose of the school is to accomplish four primary goals. First, to provide a meaningful adult education opportunity for the adult education community. Second, to provide an opportunity for adults to continue their education. Third, to provide an opportunity for adults to continue their education and prepare for adult education. Fourth, to provide an opportunity for adults to continue their education and prepare for further education. The School of Continuing Education has been established as a two-year community college to provide the adult education community with an opportunity to continue their education.

NO GENERATION GAP

An Interview With Dr. Stallworth

WHAT IS THE PURPOSE OF THIS SCHOOL?

The purpose of the school is to accomplish four objectives in four years of university work.

1. To provide adult education and community services to all people in Galveston County, Texas, bygeer the educational opportunities to the mature student;
2. To provide adult education opportunities at the Galveston Community College and the University of Texas at Galveston campuses for people who are continuing their education or who are seeking to improve their job skills;
3. To provide an educational opportunity for the high school dropout;
4. To provide a four-year college program for the high school graduate.

The college has no dreams of becoming a major university. They learn on the job and at the same time they're learning the flexibility of the college system.

Another example, we have the College of the Mainland which is interested in serving people who have dropped out of high school and compute. Also, we are serving the adult education needs of the high school graduates who have been out of high school for quite a number of years. Another example is the four-year college program for the high school graduate.

WHY DID YOU COME HERE?

I didn't come here for a job. I came here because I was interested in being associated with the profession of teaching. I was interested in talking to people about education and what the Board of Trustees wanted me to do. There were four or five years I was involved in and we're proud of it.

ONE OF THE BUSINESS DEPARTMENTS HERE IS THAT OF THE SCHOOL OF GOVERNMENT. THIS DEPARTMENT WAS ESTABLISHED AS A FOUR-YEAR PROGRAM IN 1971. WHAT IS ITS OBJECTIVE?

The objective of the School of Government is to provide the first two years of college education for people who are interested in pursuing a career in government. The School of Government is a four-year program that follows fairly well the industrial arts curriculum.

DO YOU HAVE AN INTEREST IN TEACHING?

I have an interest in teaching. I don't see teaching as a part of my career. I see teaching as a part of my life. I have the opportunity to try teaching this institution. I hope to get a job in the area of human relations. I believe that teaching is a way to improve the effectiveness and efficiency of the institution. While we must develop our courses, we must also develop our faculty. We need to have a faculty that is interested in teaching. We need to have a faculty that is interested in human relations. I believe that teaching is a way to improve the effectiveness and efficiency of the institution. We need to have a faculty that is interested in teaching. We need to have a faculty that is interested in human relations.

ONE OF THE COURSES I TAUGHT LAST FALL WAS A COURSE IN GOVERNMENT. WHAT WAS THE PURPOSE OF THIS COURSE?

The purpose of this course was to provide the students with an understanding of the American political system. The course covered the history of the United States, the constitutional development of the country, and the various branches of government.

WHAT IS YOUR PLAN FOR THE FUTURE?

I am planning to continue to teach and to continue to work in the area of human relations. I believe that teaching is a way to improve the effectiveness and efficiency of the institution. We need to have a faculty that is interested in teaching. We need to have a faculty that is interested in human relations.

PERSONALITY FACTORS

James Card

This man is a leader in the area of human relations. He is a good friend of mine and a good neighbor. He is a very good person and a very good friend. He is a person who is interested in teaching and in human relations.

INTERNSHIPS AND WORK EXPERIENCE

James Card has held a number of positions in the area of human relations. He has served as a consultant to the Board of Trustees of the University of Texas at Galveston and as a consultant to the Board of Trustees of the University of Texas at Austin. He has also served as a consultant to the Board of Trustees of the University of Texas at Dallas.

Reflecting on My Well-Being

In a recent article, the author reflected on his well-being and how it was affected by a recent change in his life. He noted that he had not been able to focus on his work, and that he was feeling anxious and stressed. He also mentioned that his relationships with friends and family had suffered as a result.

The author concluded by saying that he was trying to make changes in his life to improve his well-being. He noted that he was trying to eat healthier, get more exercise, and spend more time with his loved ones. He also mentioned that he was trying to take time for himself to reflect on his life and to make changes for the better.

The author ended by saying that he was looking forward to the future and that he hoped that his well-being would improve as he made these changes. He noted that he was grateful for the support of his loved ones and that he was looking forward to living a healthier and happier life.

THE INFORMER

By Paul Novak

Students should take to advantage of Anti-War Demonstration

The Anti-War Movement is gaining momentum across the country as young people become more aware of the horrors of war and the costs of maintaining a military presence in foreign lands.

Students on campus have been organizing protests and demonstrations in support of peace and an end to the war in Vietnam. Many students have been participating in rallies and marches, and have been speaking out against the war in their classes and on social media.

The local student chapter of Students for a Democratic Society (SDS) has been active in organizing events and rallies to raise awareness about the war and to call for peace. They have been holding weekly meetings and organizing events to educate young people about the war and its effects.

The SDS has also been working closely with other anti-war groups and organizations to coordinate their efforts and to create a larger movement for peace. They have been organizing larger events, such as the anti-war rally held on campus last week, and have been reaching out to other communities to promote their message.

The SDS has also been publishing a newsletter to keep young people informed about the war and its effects. The newsletter has been widely distributed on campus and has been reaching a wider audience.

The SDS is committed to continuing its efforts to promote peace and to end the war. They are committed to working with other anti-war groups and organizations to create a larger movement for peace and to make sure that young people have a voice in the decision-making process.

Students who are interested in learning more about the war and its effects, and who want to get involved in the anti-war movement, are encouraged to join the SDS and to attend its meetings and events. The SDS is committed to creating a safer world for all young people and to working towards a future where peace and justice are realities for all.

THE COMMUNIST'S COMPLAINT OR, I DON'T COMPREHEND

I go to church on Sunday,
But I object to being converted.
And when I say to someone
"You people must be converted,"
I work from eight 'til five.

So I object to being converted.

This verse expresses the dicta of the convention of the Fifty-Fifth Annual Meeting of the Association for the Study of the American English. It was set to music by Richard Draper. Take note, I live in New York.

HE'S WHAT HAPPENING

Robert Egner, even sitting relaxed at his desk, radiates the kind of curiosity that gets the best ideas. "I'm always interested in learning," he says. The idea of "being able to help people" is something that Robert Egner can appreciate. He enjoys reading to keep abreast of the latest news and developments in his field.

As a student at the University of Texas at Austin, Robert Egner is pursuing a degree in Computer Science. He is an active member of the Inter-Com student organization and is currently the president of the Inter-Com club. He is also involved in various community service projects, including organizing a book drive for local schools and participating in volunteer work at a local food bank.

Robert Egner is looking forward to graduation and plans to pursue a career in technology, specifically focusing on software development. He is particularly interested in machine learning and artificial intelligence.

Robert Egner's passion for technology and his commitment to helping others make him an asset to the Inter-Com club and the community as a whole.

A Full House

It is not true that if a person wants to go into the Student Center to play cards and be entertained, the only thing he should do is to pay a certain amount of money. The university, by its own regulations, is directing all its students to a different type of entertainment. In the Student Center, the students are asked to pay for the entertainment they receive, while in the earlier days, the students were directed to the Student Center and given the option of playing cards for free. There are some students who are willing to pay the entertainment fee, while others are not. The issue is not about who pays the fee, but about the right to enjoy the entertainment. The university has a responsibility to provide entertainment for all its students, and the students should be given the option to choose between paying for the entertainment or not.

“Ask and Ye Shall Be Given”

To the Editor of the Student:

I am writing to express my concern about the current situation at the university. The university is not providing enough entertainment for all its students. The Student Center is overcrowded, and there is a lack of facilities for students to enjoy their time. I am asking that the university consider providing more entertainment for all its students. The university should consider providing more facilities and services for students, so that they can enjoy their time on campus.

Due Process is A Necessity
By ROBERT MARZUEZ

A recent amendment of the Student-Teacher Agreement
may result in the taking of certain actions by the
Tulare County Board of Education, which could have
adverse effects on the rights of the students involved.
It is not our purpose to pretend the objec-
tion to the inclusion of the amendment was
merely one of idle curiosity, but rather one
of a genuine concern for the welfare of the
students involved. The policy of the Student-Teacher
Agreement relates specifically to the student, and
no one should be forced to accept a policy that
is not approved by the students themselves.

TO THE EDITOR
Dear Sir:
In the past, the Board of Education has
failed to consult the student body when
major decisions are made. I believe it
would be more fair and just if the
Board of Education would consult with
the student body before deciding on
any major policies.

Sincerely,
Student 7, Tulare High School

5 years.

Question: How much will the bond issue
increase property taxes?
Answer: The bond issue will increase property taxes
by 2%.

The following is a personal statement to
be published in the InterCom.

Dear Students,
I am writing to bring to your
attention an important issue that
affects all of us. The Board of
Education has proposed a bond
issue, which will provide
funding for the construction of
new classrooms and facilities on
Tulare High School campus.

I urge you to support this
bond issue, as it will ensure
that our school can provide
a quality education for our
students. The bond issue will
not increase property taxes,
and will benefit all of us in the
long run.

Signed,

Crowd Moves Indoors

As evening moved into the night with its heavy rains and thunderstorms, the enthusiastic crowd who had gathered on the lawn of the campus to hear the speakers was moved indoors.

Ethnic Studies

A student for a major in the ethnic studies program had this to say about the importance of ethnic studies:

"I have been interested in ethnic studies for several years. As a member of the minority group, I have always felt that there was a lack of understanding of our culture and its history. Ethnic studies has helped me to appreciate the contributions of our ancestors and to understand the challenges we face today.

Weekend Convention

The Weekend Convention was a great success, with over 1000 participants from all over the country. The keynote speaker, Dr. Smith, gave an inspiring speech on the importance of education in our society.

Conform

A student for a major in the conform program had this to say about the importance of conform:

"I have always been interested in the conform program. As a member of the majority group, I have always felt that there was a lack of understanding of our culture and its history. Conform has helped me to appreciate the contributions of our culture and to understand the challenges we face today.

State Senator Schwartz

State Senator Schwartz has been a strong advocate for education reform and has worked tirelessly to improve the quality of education in our state.

Tutees' Needs

The tutees' needs have always been a priority for the college. As a member of the education department, I have always felt that there was a lack of understanding of our culture and its history. Education has helped me to appreciate the contributions of our culture and to understand the challenges we face today.

Bastards-Love or Hate

These people shudder when they hear or see the word Bastards. We are of course talking about Black bastards. It is a strange feeling that one or two Black bastards can instill in a person. It is amazing to think that the name Bastard is a term that has been used for a long time by whites, but it is also amazing to think that we Black bastards are still called that.

It is very rare when someone is not a member of the majority race. People have been called back bastards and back people for as long as there have been people. Many people have been called bastards and back people because they are not a part of the majority race. It is a sad fact that we are still called these names after so many years.

Many of us who are of the majority race in the city have been called bastards and back people when we were children. It is a fact that we are still called these names after so many years.

Once the scene of a band of students from the University of Texas who were trying to start a rapping movement in the city of El Paso, the University of Texas campus is now the scene of a rapping movement in the city of El Paso. A group of young people are now trying to start a rapping movement in the city of El Paso.

Every person who understands the concept of rapping knows that rapping is an art that has been around for a long time. It has been around for a long time.

But in recent years, the use of rapping in the city of El Paso has increased. Many people have started to rap in the city of El Paso. It is a fact that rapping is now being used in the city of El Paso.

In conclusion, hip hop culture has been around for a long time. It has been around for a long time. It is a fact that rapping is now being used in the city of El Paso.
