COM organizations offer fun, experience

By Barbara L. Miah

Student organizations and clubs can be a great place to meet new people and gain leadership experience. It's a way to develop your personal skills and gain new perspectives.

Many students who enter college find time in their lives to put into practice the new and interesting things. Joining a club in a newly renovated old wing of the Mainland Student Center is an example of how students can get involved in campus life.

Elevator gets final OK from ADA

By Barbara L. Miah

The new elevator in the Student Union is a major improvement for students who need accessibility. The elevator is a big help for people who have mobility issues.

Regular physical activity maintains health

By RICHARD L. WILSON
Managing Editor

It's a fact: Regular physical activity helps to maintain a healthy weight. But what many people don't realize is that regular exercise also helps the body to feel all its parts. And that's not just the brain and muscles. It's also the heart.

The heart is a muscle, and like any other muscle, it needs exercise to stay healthy. The heart is responsible for pumping blood throughout the body, and it needs to work hard to do so. Regular exercise can help to keep the heart healthy and strong, and reduce the risk of heart disease.

But what about the brain? Well, regular exercise can also help to improve brain function. It can improve memory, mood, and overall cognitive performance.

And what about the muscles? Regular exercise can help to build muscle mass and strength, and reduce the risk of injury and osteoporosis.

So, if you're looking for ways to improve your health, consider regular physical activity. It's a great way to stay healthy and strong, and improve your overall quality of life.

COM offers summer golf and swimming classes

By CATHERINE FLEISNER
Staff Writer

COM offers a variety of summer classes for students and their families. This year, students can take advantage of the golf and swimming classes offered by the COM pool.

Swimming Classes

Each one-week session will be held on Monday, Wednesday, and Friday, from 10 a.m. to 12 p.m. The cost for the session is $30, and it is limited to eight participants.

Golf Classes

The golf classes will be held on Tuesday and Thursday, from 3 p.m. to 5 p.m. The cost for the session is $50, and it is limited to eight participants.

For more information or to register, please contact the COM pool office.
Westin balances theater, other roles

By ROBERT J. KASS

Managing Editor

Joshua Westin, a 20-year-old student actor at the University of Texas at Galveston, is a person who makes the most out of his time. A student at UT Galveston, he has acted in several plays and is currently playing a lead role in the play "The Importance of Being Earnest." Westin balances his intense theater schedule with his job as a part-time janitor in the Fine Arts Building, which has added to his experiences as a student.

Westin is currently taking classes from 9 a.m. to 5 p.m. Monday through Thursday, which leaves him weekends to pursue his passion for acting. Even though he works a full-time job, Westin stays focused on his studies.

"I think it's all about time management," Westin said. "I have a lot of experience being a janitor, so I know how to do my job quickly and efficiently. This is why I can balance my work and school responsibilities."

Alaska's pristine beauty, friendly people beckon visitors

By KARA BRITTON

Kara Britton is a new correspondent for the University of Nevada at Las Vegas. During her visit to Alaska, she found the state to be a unique and special place.

Alaska is a truly unique place, and its pristine beauty is something that you cannot find anywhere else. The mountains, the trees, and the water are all remarkable. The people are also very friendly and welcoming.

One of the most impressive things about Alaska is the wildlife. The variety of animals that you can see is incredible. There are grizzly bears, moose, and bald eagles just to name a few.

My favorite thing about Alaska is the people. They are so kind and welcoming. It felt like I was part of a big family.

Student achieves Little League dream

By ELISA FERREIRA

Junior Elisa Ferreira was able to achieve her dream of being on the Little League team last year. "I had been wanting to be on the team for a long time," Ferreira said. "I finally got the opportunity last summer and I was so excited."

After being chosen to be on the team, Ferreira spent a lot of time working on her skills. "I practiced every day," Ferreira said. "I wanted to make sure that I was ready for the games."}

Mom thrilled about being in college

By JUDY LEAR

Julietta Lear was thrilled to receive the news that her son had been accepted into college. "I was so happy," Lear said. "I had been waiting for this moment for a long time." Lear is proud of her son and knows that he will do great things in college.

Houston museum offers fun, educational exhibits

By ANNE MARIE PHILLIPS

The Houston Museum of Natural Science, which was recently expanded, offers a variety of fun and educational exhibits for visitors of all ages. The museum has over 300,000 visitors each year and is one of the most visited museums in the country.

One of the most popular exhibits is the "Butterfly Habitat." Visitors can see butterflies up close and learn about their life cycle. The museum also has a "Dinosaur Hall" exhibit where visitors can see fossils and models of dinosaurs.

The museum also has a "Deep Space Gallery" where visitors can learn about the solar system and space exploration. Visitors can also see a "Living Ocean" exhibit where they can learn about marine life and the ocean ecosystem.

The museum is open daily from 10 a.m. to 6 p.m. and admission is $15 for adults and $12 for children.

Children's activities include a "Science Tots" program for children ages 2-4 and a "Science Family" program for children ages 5-12.

The museum is located at 1201 McKinney St., Houston, TX 77001. For more information, visit the museum's website at www.hmns.org.
Westin balances theater, other roles

By BUSMARK L. SCHAUDER
Westin started her career in New York in 1949 working for the New York Times. She married Jack Westin, the theater manager at the New York Times, and they moved to Houston in 1954. Westin has devoted her life to the theater community and has been involved in many organizations, including the Houston Symphony Orchestra, the Houston Grand Opera, and the Houston Ballet. She has also served on the board of directors for the Houston Symphony Orchestra and the Houston Grand Opera. Westin is known for her dedication to the arts and her support of local theater productions. She continues to be active in the community and is a beloved figure in the Houston theater scene.

Alaska's pristine beauty, friendly people beckon visitors

By KARA BRITTON
Kara Britton is a journalist who has been covering the Alaska tourism industry for over 10 years. She has written numerous articles on the state's natural beauty, wildlife, and unique culture. Britton is known for her ability to capture the essence of Alaska and its people, making her articles popular among readers. She is also a frequent contributor to Alaska's popular tourism websites and blogs, where she shares her insights and experiences.

Student achieves Little League dream

By INTERCOM Staff Writer

Student Achieves Little League Dream

Regina, the new girl in town, has been playing Little League since she was five years old. She has always wanted to be a pitcher and has been working hard to improve her skills. This year, she finally got the chance to pitch in a game and did an amazing job. The crowd went wild as she struck out the last batter of the game. Regina's coach was so proud of her and said that she is a natural born leader. Regina is now looking forward to playing in more games and hopes to become the best pitcher in the league.

Mom thrilled about being in college

By ELLA PENN
Ella Penn is a college student who recently received her acceptance letter to her dream school. She is overjoyed and can hardly contain her excitement. She has always been passionate about education and has worked hard to achieve her goals. Penn is now looking forward to attending her college and making the most of her educational opportunities.

Houston museum offers fun, educational exhibits

The Houston Museum of Natural History, which was recently re-opened after a major renovation, offers a variety of fun and educational exhibits for all ages. The museum features over 100 exhibits and interactive displays that cover everything from dinosaurs to space. Visitors can learn about the history of Earth, explore the vast and diverse animal kingdom, and discover the mysteries of the universe. The museum is located in the Museum District of Houston and is open daily.
Sports/Recreation

Regular physical activity maintains health
By CATHERINE FLEISSNER
Exercise

Exercise is a powerful tool for maintaining health. Regular physical activity also helps keep the body free of illness, helps to maintain a healthy weight, and helps to reduce the risk of developing chronic diseases such as heart disease, diabetes, and certain types of cancer. Exercise also helps to reduce stress, improve mood, and increase energy levels.

The American College of Sports Medicine (ACSM) recommends that adults engage in at least 150 minutes of moderate-intensity aerobic activity or 75 minutes of vigorous-intensity aerobic activity each week, or a combination of both. This can be spread out over several days and performed in shorter durations as long as a total of 150 minutes is achieved.

In addition to aerobic exercise, the ACSM also recommends that adults perform muscle-strengthening activities involving major muscle groups on at least two days per week.

Walking is a great form of aerobic exercise and is recommended for people of all ages and fitness levels. Simple activities such as daily walks around the neighborhood or using the stairs instead of the elevator can help improve cardiovascular fitness and maintain a healthy body weight.

For more information on physical activity and exercise, please visit the ACSM's website at https://www.acsm.org.

COM offers summer golf and swimming classes
By CATHERINE FLEISSNER

Golf lessons

The College of the Mainland offers a variety of summer sports programs. This week we are focusing on golf and swimming. Two weeks of golf and swimming classes are offered in the COM pool. Enrollment is limited to eight.

Registration: $45 for child and adult, and includes $32 fee in addition to $10 green fee. For more information, contact the Education Department, Administration Building, Suite A-125-B, behind the Administration Building, or call Jeanette Swindell, (409) 938-1211 or (713) 223-4090.

Exercise and Your Health

Exercise is designed for beginners and adults 16 and older. The course is one hour in length, twice a week, and $45 per person. To register, call (409) 223-4090. For more information, contact Jeanette Swindell, (409) 938-1211 or (713) 223-4090.

In addition, the College of the Mainland offers a Continuing Education course titled "Exercise and Your Health." This course will be held on the main campus in the COM pool. Classes will be held on Tuesdays and Thursdays for two weeks. For more information, contact Jeanette Swindell, (409) 938-1211 or (713) 223-4090.

Reading praises reporter for insightful editorial

Dear Editor:

If a reporter and Americas editor who reported on the Texas City fire last week for the Houston Chronicle, you have a very well-written article in your edition of the American Legionnaire. I would like to thank you for your effort in writing an article that not only covered the tragedy but also highlighted the heroism of the individuals who worked to save lives and property. Your article was very insightful and informative, and I believe it will help bring about necessary changes to prevent similar tragedies in the future.

Sincerely,

Barbara E. Lewis

Reader praises reporter for insightful editorial

Design set for Apollo 13 movie junket

Confounded from Page 1

The design team at the College of the Medicine is working on a set for the upcoming movie "Apollo 13". The movie is about the 1970 Apollo 13 mission to the moon, which experienced a near-catastrophic malfunction.

More than 100 students answer survey

More than 100 students responded to a survey conducted by the College of the Medicine. The survey asked students about their experiences with the college and their satisfaction with various aspects of campus life.

Summer '95 InterCOM staff

The Summer '95 InterCOM staff is composed of students from the College of the Medicine, who are working on the InterCOM newspaper.

Elevator gets final OK from ADA

By Andrea L. Lively

The elevator in the new dormitory on the Campus of the Medicine has received final approval from the Americans with Disabilities Act (ADA).

The renovated Tech Hall bookstore is the latest addition to the College of the Medicine's renovation projects. The bookstore, which was formerly located in a smaller, less accessible space, has been moved to a more central location on campus.

The building was originally constructed in 1950 and has undergone several renovations over the years. The latest renovation was completed in 2015 and included the addition of a new elevator, new flooring, and updated lighting.

The bookstore now features a wider selection of books and other materials, as well as a more comfortable seating area for students to read and study. The new location also provides better visibility and accessibility for people with disabilities.

The renovation project was led by the College of the Medicine's Facilities Management Department, with input from students, faculty, and staff. The project was funded through the college's capital improvement budget.

For more information about the renovation, contact the Facilities Management Department at (555) 555-5555.

Other faiths deserve equal religious rights

By ROYADRIAN L. LEBBE

College of the Holy Cross and Society for Student Freedom editor.

The Nazarene University Council, which was established by the university in 1941, is the latest in a series of religious organizations to be created in the College of the Holy Cross. The Nazarene University Council is comprised of students, faculty, and administration who work together to promote the religious values of the university.

The Council is responsible for the religious activities on campus, and it is also responsible for the religious education of the students. The Council is made up of representatives from various religious groups on campus, and it meets regularly to discuss issues related to religion and spirituality.

The Council's primary goal is to create a supportive and inclusive environment for all students, regardless of their religious beliefs. It offers a variety of religious services, including prayer, meditation, and worship, and it encourages students to explore their faith.

Legalized substance abuse big problem

By ROYADRIAN L. LEBBE

Editorial/News

Substance abuse is a prevalent issue on college campuses, and the College of the Holy Cross is no exception. According to recent surveys, a significant number of students at the college have tried or used illegal substances.

The problem is particularly prevalent among first-year students, who are often more open to experimenting with substances. The college administration has taken steps to address the issue, including increasing the availability of counseling services and offering education programs on the dangers of substance abuse.

Despite these efforts, however, many students continue to struggle with substance abuse. This issue is a concern not only for the students affected but also for the entire college community.
Sports/Recreation

Outdoor Club seeks more students

The Outdoor Club is seeking new members to participate in outdoor activities. According to club member Asbl OD Jackson, Tige Cornelius, and Michael Judge, the club had an outdoor adventure last month as part of their efforts to attract more students. The club is planning to organize more activities in the future, including a trip to the Rio Grande. Meetings are held weekly in the Student Center, and interested students are encouraged to attend.

Karate expert gives self-defense tactics

Karate master Al Garza shows students and community members self-defense tactics, including defense against a knife attack. Garza emphasizes the importance of being prepared and practicing self-defense techniques. He is available for private lessons and can be contacted at (409) 945-8244.

PTK plans activities, fair slated for Nov. 4

The Phi Theta Kappa (PTK) club is planning events and a fair scheduled for Nov. 4. The club is seeking participation from all students and faculty. Interested members are encouraged to attend the meeting at the PTK booth in A-127 this week.

COM police provide new emergency medical service

The police department at the College of the Mainland (COM) is offering emergency medical service. As part of this service, police officers are equipped with medical kits and emergency first aid supplies, trained to handle medical emergencies. For further information, call (409) 945-8244.

Fields elected Student Government president

Student Government recently elected John Fields as president for the next academic year. He plans to address student concerns and improve campus life. The next meeting for the Student Government will be held in room A-127 on campus.

Letter to the Reader

Readers' letters wanted

The InterCOM welcomes letters from students, faculty, and community members. Letters can be submitted by email to intercom@com.edu or by mail to InterCOM, 6100 Amburn Road, League City, TX 77591. Letters should be no longer than 300 words, and will be published as space allows.

Shelly Shippy is a counselor at the Student Government Office. He is also the director of the Student Government of the University of Texas at San Antonio.

Back to basics for Sun sports editor

By LINDA ADAMSON
Sports Editor

The Sun's sports editor has been working on some new ideas for the paper's sports section. She has been busy putting in some extra hours and playing some music to get into a good mood for writing. She says that the key to making good music is finding the right balance between work and play. She has been working on some new ideas for the paper's sports section, which she hopes to implement soon.

There's something in Lake Eckert...

By CINDY PENDER
Entertainment Editor

After finishing the last few pages of the manuscript, Cindy Pender decided to take a break. She started writing down some ideas for the next chapter, but soon realized that she needed to come up with a title. She decided to call the chapter "There's something in Lake Eckert..." and started working on the next few pages.
Counselor Shippy dedicated to his 'paychecks'

By B.E.A. GERMAN
Staff Reporter

John Shippy, the new counselor for the Student Government Association, has been busy this semester organizing the first year students. Shippy, a 35 year-old married father of two, enjoys his job helping students.

"I'm doing a job that I love," Shippy said. "I enjoy helping students, especially first year students. When I was in college, I wanted to be a counselor because I like helping people."

Shippy, who began his career in 1981 as a counselor, said he has been at COM for the past 16 years. "I've served in several capacities here at COM," Shippy said. "I've been a clerk, a stringer, a sports writer, and now I'm a counselor."

Shippy said he enjoys the diversity of COM. "I like working with a wide range of people," he said. "I enjoy helping students from different backgrounds."

Shippy said he is proud of the work he has done at COM. "I've seen a lot of changes here at COM," he said. "I've seen the college grow and change, and I'm proud to have been a part of it."

Shippy said he plans to continue to help students at COM. "I plan to stay here as long as they'll have me," he said. "I enjoy working with students and helping them achieve their goals."

Back to basics for Sun sports editor

By L.E. KEITH
Staff Reporter

The new sports editor of the Sun, John Smith, enjoys his new position. "I'm glad to be back with the Sun," Smith said. "I like writing about sports and covering events."

Smith said he enjoys the challenge of covering events. "I enjoy the fast-paced environment," he said. "I like being able to write about events as they happen."

Smith said he hopes to improve the Sun's sports coverage. "I want to make the Sun's sports coverage better," he said. "I want to make it more interesting and informative."

Smith said he hopes to increase the Sun's sports coverage. "I want to cover more events," he said. "I want to make sure that our readers get the information they want."

Smith said he hopes to work with the Sun's staff to improve its sports coverage. "I want to work with the other editors to improve our sports coverage," he said. "I want to make sure that our readers get the best possible coverage."

There's something in Lake Eckert...

By J.W. FISHER
Staff Writer

Lake Eckert is a place of mystery, a place of legend. Many believe that there is something lurking in the depths of the lake. Some claim to have seen a creature, a monster, swimming in the lake. Others say that the lake is haunted.

Despite the stories, Lake Eckert remains a place of wonder. The lake is home to a variety of wildlife, including ducks, geese, and cranes. The lake is also a popular spot for fishing and boating.

Many people have tried to catch a glimpse of the creature that is said to live in the lake. Some have reported seeing strange shapes in the water, while others have claimed to have heard strange noises. Despite the stories, no one has been able to prove the existence of a creature in the lake.

Lake Eckert is a place of mystery, a place of legend. It is a place where the possibilities are endless.
Outdoor Club seeks more students

By Weizhou Wang

For the Student Activities Office, it's not too late to turn your skills into an activity. "We really don't care what you bring," said Outdoor Club director Jack Pendexter. "If you've got the time, we've got the place."

As the inaugural meeting concluded, a new chapter and new opportunities opened for the club. For the students interested in outdoor sports and recreation, the club may be the answer to their activities needs.

In October, a group of four went three days and two nights paddling down the Red River. "It was so clear and cool. Everyone had a beautiful time," Pendexter said.

"They wanted a club where they can come and go," Pendexter said. "This club is for them."

Along with the Red River trip, others have gone to Cameron, the Two Rivers Marina, and the South Texas coast. "We sold a few shirts," Pendexter said. "It's not much, but it's a start."

"We have 10 members," Pendexter said. "We need more."

A planning meeting will be held on campus to plan future trips. "It's the only way the club can grow," Pendexter said. "We need to plan trips."

PTK plans activities, fair slated for Nov. 4

By Nicole Combs

The Student Government meets every Monday at 6:30 p.m. in the Intercom Room. Each meeting lasts about an hour and a half. The council considers any new business and votes on various issues.

During the most recent meeting, several improvements were discussed. The biggest decision of the night was whether or not to go to the Student Government convention in Galveston this December. The Student Government Budget Commission voted for the students to go.

COM police provide new emergency medical service

By Nicole Combs

The campus police, in conjunction with the emergency medical service (EMS) department, recently began providing emergency medical services (EMS) on campus.

Students who are rushed to the hospital will no longer be rushed to the hospital. Instead, they will be rushed to the hospital by the campus police, who will provide the necessary medical attention.

Field's elected Student Government president by small margin

The election results were announced Monday evening. Kyle Fields, a senior psychology major, was elected Student Government president by the closest margin in school history. In the election, Fields received 40 votes, while his opponent, a junior psychology major, received 38 votes.

The results of the election were announced in the Intercom Room. Fields said he was pleased with the results, but he was disappointed with the margin of victory. "I was hoping for a bigger margin," Fields said. "I was hoping for a bigger margin."

The English professors offer assistance to students

By MELISSA HOUS

Need help with a writing assignment? The English
professors at COM are ready to assist you. They
offer free assistance in the Writing Center located in the
building with the green awning. The Writing Center is
open from 9 a.m. to 5 p.m. Monday through Friday.

Legalized substance abuse big problem

By ROBERT D. LERNI

The use of illegal substances is a big problem on
campus. It's important to stay informed about the
adverse effects of these substances and to know
how to seek help when needed.

Fall '95 InterCOM staff

InterCOM is a publication that covers
news and events on campus.

UAHCL sponsors elder essay competition

The University of Alabama at Huntsville (UAHCL)
is sponsoring an essay competition for older
adults. The competition is open to individuals
who are 55 years of age or older. The deadline for
submissions is November 15, 1995.

Vehicle decals needed due to parking problems

The InterCOM staff is looking for volunteers
to help with the parking situation. If you
are interested, please contact the office at
(205) 855-1490.

Demand for players high in Jazz Combo

The Jazz Combo is in need of additional players.
If you are interested, please contact
Mr. Smith at (205) 855-1490.

Don't Drink the Water

Don't Drink the Water set to run Oct. 26-Nov. 19

By MARVIN DORSEY

Don't Drink the Water is a gripping drama set around a water crisis in the rural South. The story is written by D. W. Scott, a professor at Texas A&M University, and directed by InterCOM's Theatre Department Chair, Dr. William Lowery. The production will be held at the InterCOM Theatre on the Mainland Campus. Performances will be held at 7:30 p.m. on Fridays and Saturdays, and at 2 p.m. on Sundays. Tickets are available at the theatre box office or online at www.inter-com.com. For more information, please call the InterCOM Box Office at (713) 938-1211.

Focus is on future in Career Library

By STEPHANIE SPOOR

The College of Continuing Education (COM) is offering a series of workshops to help students prepare for their future careers. The workshops cover topics such as resume building, interview skills, and job search strategies. The workshops will be held in the Career Library on the Mainland Campus. For more information, please call the Career Library at (713) 938-1211.

InterCOM

2 COM students finalists in contest

By MARVIN DORSEY

Two COM students have been selected as finalists in the national TIPA (Texas Intercollegiate Press Association) competition. The students, who are majoring in journalism, will compete in the contest for the best student essay. The contest is open to all students majoring in journalism, and the winners will be announced at a ceremony on November 19th. For more information, please call the COM Department of Journalism at (713) 938-1211.

Jazz Combo plans free concert Oct. 17

By STEPHANIE SPOOR

The COM Jazz Combo will be performing a free concert at InterCOM on October 17th. The concert will feature a variety of jazz arrangements, including standards from the Great American Songbook and contemporary compositions. The concert is open to all students and faculty members, and will be held in the InterCOM Theatre on the Mainland Campus. For more information, please call the COM Department of Music at (713) 938-1211.

Phone-in registration discussed at Dean's forum

By MARVIN DORSEY

Phone-in registration for COM classes will be discussed at a forum held at InterCOM on November 19th. The forum will be attended by COM faculty members and staff, as well as students and parents. The forum will provide an opportunity for participants to ask questions and provide feedback on the phone-in registration process. For more information, please call the COM Office of Student Services at (713) 938-1211.

Weapons prohibited on college campuses

More than 100 concerned College of the Mainland community members, along with several community members, protested at the COM Student Union Nov. 15. The protest was prompted by a recent study revealing the college smoker's rights were being violated.

The law has not changed. Carrying a concealed handgun law goes into effect Oct. 1. Anyone who carried a gun on campus prior to Oct. 1 must get a permit to continue to carry. The main issue is concealed weapons. Although theлушe is for campus areas, the permit is valid campus, collegiate or school areas.

Unseen power watches the unknown masses

By Skol Garwood

If you are crossing the street, and you don’t care who you are, you should know how the speed of your thoughts are being watched.

The stress of paying bills and an uncertain future can take a toll on all young people. This can be heightened in the present and acquire more power and stress. They have a habit of being watched, which now may be a part of the growing future.

I do not want to see how our powers are going to be used and the possibilities for giving the child, and grandchild, the same identity.

Smokers sign petition asking to enclose areas

The restrictions placed on teen-agers by society are the same plague. They have to work more, worry more, with "work, money, relationships with the opposite sex," and the stress of paying bills and an uncertain future are two more problems a teen-ager has to face, according to April 1992 issue of News Journal.

The stress of paying bills and an uncertain future are the same for students in college as well. It can be seen in the present and acquire more power and stress. They have a habit of being watched, which now may be a part of the growing future.

I do not want to see how our habits are being used and the possibilities for giving the child, and grandchild, the same identity.

Finley teaches students to doubt political ideology

By STEPHANIE SPOOR

After many years of teaching political science and government, Dr. Fred Taylor has come to the conclusion that the students he teaches have no idea what the principles behind our political system are all about.

"People are taught in high school, and maybe even in college, that the government is the bad guy," Taylor said. "They're taught that the government is going to take their money, and that they can't have anything unless the government gives it to them."

Taylor's approach to teaching politics is to make his students think critically about the subject. He believes that students should be encouraged to ask questions and to think for themselves, rather than simply accepting the information that is presented to them.

"I want to challenge my students to think about the ideas that are presented to them," Taylor said. "I want them to think about the implications of those ideas, and to consider whether or not those ideas are valid."

Taylor's approach to teaching has been successful, and he has seen a number of his students go on to successful careers in government and public service.

"I think that my students have a better understanding of the political system than they did when they first entered my class," Taylor said. "I think that they have a better understanding of the principles behind our government, and that they are better equipped to participate in the political process."

COM volleyball team takes 2nd place at Sports Day

By RICK GILLIAM

The COM volleyball team had two great games in their first actual game to enter the tougher loser’s bracket just as the North Harris Community College chopped back in the consolation bracket and finished in third place at the GCIC competition held in Lake Jackson.

COM tied with Austin Community College to win its first game. COM won the second game that was a bit closer than the first.

In addition to the volleyball tournament, the COM Student Center hosted the first annual golf tournament.

The Living Sea reveals vast marine life

By MARK A. ADAMS

The Nautilus Museum of Naval Science reveals an underwater world of sea life.

The museum shows the world’s most unique and sea life at the Rockport-Fulton International Fishermen’s Museum. The museum is located at 201 White Rock Blvd. in Rockport.

The exhibit showcases sea life in the Gulf of Mexico, including a large exhibit of a giant squid and a sea lion.

College of the Mainland offers a variety of classes to help students earn a two-year degree or certificate. Not only does COM offer an education, but it also offers the opportunity for the students to make new friends at a dance, a movie or a comedy show. These activities are paid for by student fees, and sponsored and organized by the Student Activities Board.

In addition to credit classes, COM also offers Continuing Education classes. So if you are retired and have an interest in quilting, sculpting, painting, drama, you can take classes to fill your leisure hours.

We asked, "Could additives be the problem?" One of the most prevalent additives in the food industry is sugar. However, the problem is that many processed foods contain high levels of sugar, which can lead to addiction. To combat this issue, we recommend that people make the switch to whole foods and limit their consumption of processed foods.

Adams new associate theater director
By: Joie Galen
Managing Editor

When asked what role do you think COM can play in the city of Galveston, you have to wonder what he has in mind. "I think the college should be a part of the community," he replied. "We are a community college, and I believe it is important to be involved in the community."

Tasty multicultural food
By: Mark A. Adams
Managing Editor

The Inter-Continental Hotel in downtown Galveston is hosting a Tasty multicultural food festival this weekend. The festival will feature live music and dance performances from around the world, as well as delicious cuisine from different cultures. The festival is free and open to the public.

Students learn on musical computer

By STEPHANIE SPOOR

Students learn on the musical computer, a Power Mac. The computer is used for music composition and production.

"I highly recommend this computer for music composition. It is easy to use and produces high-quality music." - Student

The computer includes a synthesizer and two sound cards. It can produce music with just a few clicks.

"The computer has saved me so much time. I can create music in minutes that would take hours with a traditional piano." - Student

The computer also includes a hard drive of music scores and a CD burner for recording and sharing.

Students are excited about the new music program and are looking forward to future projects.
Teen suicide rate higher since 1980

Teen suicide rates have been on the rise since 1980, according to a study by the American Association of Suicidology. The study found that the rate of suicide among teenagers has doubled since 1980, with the highest increase occurring among those aged 15 to 19. The study also found that the rate of suicide among children aged 10 to 14 has remained relatively stable since 1980, with a slight decrease in recent years.

Nurses volunteer to make a difference

Nurses volunteer to make a difference every day. They are the unsung heroes of the healthcare system, providing care and compassion to patients and their families. Nurses are often the first to notice when something is wrong, and they are the ones who take immediate action to correct it.

Unseen power watches the unknowing masses

Skile Garwood

The unseen power is listening... or some other importune image that cannot be reasoned away from your subconscious. It cannot be dismissed, nor can you escape its watchful gaze. This power, whatever it may be, is always present, always vigilant. It is a force that cannot be ignored, a presence that cannot be denied. The question is not whether it exists, but rather how one can best cope with its influence.

Teens unable to cope with life's pressures

Teen Pop News Page

A recent survey done by Steinberg and Associates indicates that about 80% of students suffer from some form of stress. The stress levels are at their highest during the college or high school years. This can be due to many factors such as grades, social issues, financial problems, and family pressures. The study also shows that those who are able to balance their studies and social life are less likely to experience mental issues. It is also important to note that many teenagers may not seek help even if they are struggling.

Woody Allen’s comedy runs through Nov. 19

Como News Page

Woody Allen’s latest comedy, “The Curse of the Jade Serpent,” will be shown at the City of Texas City’s Art Theatre from now through Nov. 19. The film is a classic example of Allen’s brand of humor, featuring a series of misadventures that arise from a不慎的thief who steals a jade monkey from a temple in China. The movie is directed by Allen and stars a cast of characters that are known for their offbeat and quirky personalities. It is a must-see for fans of Allen’s work.

Family gatherings highlight of Thanksgiving

Holiday Report

Thanksgiving is a time for families to gather and celebrate the holiday season. It is a time for giving thanks to the people who have loved and supported us throughout the year. It is a time to reminisce and to catch up on happenings since their last visit. Families gather with each other and friends to celebrate, enjoying traditional foods and sharing stories of the past year. It is a time to make new memories and to strengthen the bonds that hold families together.

Journalism helps career advancement

By JOSE GALVAN

Maree Lancaster, a 26-year-old journalism major from Galveston, said she is taking Journalism because it helps her career advancement and because it brings her closer to her goals.

The show, which will be called "Showdown," will feature a variety of performers, including musicians, dancers, and comedians. The show will be held at 8 p.m. on Jan. 6 at the University of Houston's TASSO Center. For ticket information, please contact the Box Office at 713-311-8900.

The answer is very simple. Not only can you learn about the world of journalism, but you can also develop skills in writing, research, and communication.

Math big issue at Deans Forum

By JOSE GALVAN

Mathematics is a key issue for the upcoming Deans Forum. The forum is scheduled for Dec. 11 at 9 a.m. in the University Center. The forum will focus on ways to improve the teaching of mathematics at the University.

'Home for Christmas...only in my dreams'

By Louise Hamilton

The holidays are a time of celebration, but for some, it is a time of loneliness. The poem 'Home for Christmas...only in my dreams' is a reflection of the emotions that many people feel during the holiday season. It speaks to the sense of loss, the longing for home, and the desire to be with loved ones.
Heart disease in USA leading cause of death

By Andrew Z. Lanni

Heart Disease is the number one killer in the USA. According to the American Heart Association, heart disease is the leading cause of death in the USA, accounting for 1 in 9 deaths. Coronary heart disease, stroke, and heart failure are the most common forms of heart disease in the USA. The statistics are alarming, with the number of deaths from heart disease rising every year. It is crucial for us to take preventive measures to reduce the risk of heart disease and to seek immediate medical attention if symptoms arise. Overall, heart disease is a preventable condition, and with the right information and lifestyle changes, we can all work towards a healthier future.

Editor's take: This article is a stark reminder of the importance of heart health. It is essential for us to take action to prevent heart disease and to seek help if we experience any symptoms. We must all do our part to reduce the risk of heart disease and to improve our overall health.

Surf 'n' net: Tech-Voc Innovations lab

Tech-Voc Innovations, located in the College of the Mainland, offers a variety of free activities to students. This semester, Tech-Voc has a new lab located in the College of the Mainland Innovations building, which is open to students, faculty, and staff. The lab is equipped with computers and internet access, and it is available for students to use during their free time. This lab provides a space for students to work on their homework or to simply surf the net. It is a great resource for students who need a quiet place to study or to focus on their work. Overall, Tech-Voc Innovations lab is a valuable addition to the College of the Mainland's offerings, and it is a great resource for students who need extra help or who simply want to work on their projects.

COM offers spring sports activities

By Ron Gilmore

The College of the Mainland will offer a variety of spring sports activities, including basketball, bowling, softball, and tennis. The basketball season will begin in February, with games scheduled on Saturdays and Sundays. The bowling season will begin in January, with games scheduled on Tuesdays and Thursdays. The softball season will begin in March, with games scheduled on Fridays and Saturdays. The tennis season will begin in May, with games scheduled on Mondays and Wednesdays. These activities are open to all students, faculty, and staff, and they provide a fun and healthy way to stay active during the spring season. Overall, the College of the Mainland offers a great selection of spring sports activities, and they are a great way to get involved and to stay active.

Memnoch the Devil explores beliefs

By Frank Zabala

Memnoch the Devil is a novel written by controversial author Anne Rice. The novel explores the theme of faith and the nature of God. Memnoch, the devil, is portrayed as a graceful and sophisticated figure who is able to convince people of his true nature. Rice's novel is a thought-provoking work that challenges traditional religious beliefs. It is a complex and masterful exploration of the human condition and the nature of faith.

More for your money snack bar manager's goal

By Michael E. Gomez

The snack bar manager at COM has set a goal to increase sales and provide better service to students. This year, the snack bar has undergone a few changes, including new menu items and improved customer service. The manager is confident that these changes will lead to increased sales and improved customer satisfaction. The manager also plans to use social media to promote the snack bar and to attract more customers. Overall, the snack bar manager is dedicated to providing a great experience for students and to increasing sales for the bar.

Editor's note: This article is a great example of how a manager can use customer service and marketing to increase sales. The manager's focus on providing a great experience for customers is an important part of increasing sales. The manager also uses social media to promote the snack bar, which is a great way to attract more customers. Overall, the manager's goal is an important one, and it shows how dedicated she is to providing a great experience for students.
COM instructor among fun run winners

By JUNE ELKAM

Julie Mills, Nancy Thomas, Paul Thomas and Steve Wadsworth were among the top finishers in the College of the Mainland’s 22nd annual Freedom Run on Saturday, Oct. 19. The fun run was held at the school’s Nacogdoches campus, and the 5K run started at 10 a.m. The event is sponsored by the College of the Mainland Student Government. The race attracted participants of all ages, including several teams from local businesses and organizations.

The fun run started at 10 a.m. and ended at 11 a.m. The course was 5K, or 3.1 miles, and included a 1-mile walk. There were more than 200 participants and about 100 runners. The top three finishers were: 1st place, Paul Thomas; 2nd place, Nancy Thomas; and 3rd place, Julie Mills.

Beyond the top three finishers, there were several other runners who impressively performed. Ross Mills of League City finished in second place in the 6-mile division. Daniels (League City) and Ross (Dickinson) finished in second place in their respective division.

GCIC Sports Day flag football team

The College of the Mainland’s GCIC Sports Day flag football team placed first out of 15 teams after participating in the game on Wednesday, Oct. 16. The team was comprised of students and faculty members. The game was held at the school’s Nacogdoches campus.

There were several teams that participated, including teams from local businesses and organizations. The GCIC Sports Day flag football team earned the top spot due to their strong performance. The team was comprised of students and faculty members, and they worked together to achieve their victory.

Photo editor to continue education at SFA

By TRAVIS L. CORTILLAT

William S. Johnson, Jr. has been named the new photo editor for the Department of Visual and Performing Arts at Stephen F. Austin State University. Johnson has been with the university for 10 years and has served as the department’s photo editor since 2011. He has also taught photography courses at the university.

Johnson said that he is excited to continue his education and is looking forward to the new role. He has always been passionate about photography and is thrilled to be able to continue his education in this field.

Government, businesses to restrict guns

The State of Texas has passed a new law that restricts the carrying of concealed handguns in certain places. The law prohibits the carrying of concealed handguns in certain public buildings, public transit vehicles, and private properties with fewer than 100 employees. The law also prohibits the carrying of concealed handguns in certain businesses and organizations.

The law went into effect on Jan. 1, 2013. It was passed by the State Legislature and signed into law by Governor Perry. The law is intended to strengthen the state’s concealed handgun laws and protect public safety.

The law applies to individuals who are carrying a concealed handgun in a public building, public transit vehicle, or private property with fewer than 100 employees. The law also applies to businesses and organizations that prohibit the carrying of concealed handguns.

The law is intended to strengthen the state’s concealed handgun laws and protect public safety.
One Christmas long ago my family decided to have an old fashioned Christmas for which everyone agreed to make gifts by hand rather than to buy and wrap them as they usually did. My six-year-old daughter, Skip Galvani, and I had a lot of fun making presents. We spent many hours together working on them. Skip's projects were signed with 1945 and 1946, and mine had the year 1946. We even had the same assortment of Christmas trees, reindeer and other decorations in our homes. We tried to make sure our gifts were special and meaningful to those who would receive them. Skipping was a big part of our Christmas tradition. It was a time for us to relax and enjoy the holiday season. We spent many hours each day working on presents, and we were always very proud of our efforts. The presents we made were a great deal of fun to give and receive. I still have many of the presents I made, and I'm sure my daughter does too. The tradition of making Christmas presents has always remained a part of our family's holiday celebration, and I'm sure it will continue to be so for many years to come. Merry Christmas to all, and happy holidays! By Brigid Grunewald, Assistant Editor.

PTK hosts fund-raising arts, crafts fair

InterCOM staff reports

For the third year, the PTK chapter at College of the Mainland is holding an arts and crafts fair this Sat­urday to raise money for a good cause. The event is from 10 a.m. to 4 p.m. at the Mainland Student Center and will feature paintings, crafts and numerous other items donated by local artists and students.

The proceeds will benefit the College of the Main­land’s chapter of PTK and the American Liver Foun­dation. "Liver is a fatal disease and causes severe pain. The chance of survival is one in four people," said PTK President Susan Frohling.

PTK members and local high school graduating students have loaned items to the fair. "There are about 500 items on display which will be sold at the fair," Frohling said.

Buddenhagen’s class assembles 300 collections

Continued from Page 1

"I didn’t realize the class was going to do that," said Buddenhagen. "They didn’t tell me about the collection, but I’m glad they did."

The students used the sets for a project in their history class which is about the history of the Civil War. The students will learn about the history of the Civil War by putting together the sets and then using them to make models of different scenes from the war.

Harmony inspires holiday spirit at Winter Concert

The Studio Singers began their Winter Concert Sunday night with a program featuring a variety of Christmas music. The concert featured the group’s annual Christmas sing-a-long and a variety of holiday songs.

The concert began with a performance of "O Holy Night" by the Studio Singers. The group also performed "Silent Night," "O Come All Ye Faithful," and "Hark! The Herald Angels Sing." The concert concluded with a performance of "Weihnachtsgesaellchen" by the Studio Singers. The group also performed "Jingle Bells," "I Saw Three Ships," and "The First Noel."
Journalism helps career advancement

By NICOLE

Some students see an understanding of journalism as a stepping stone to a career in the field. For these students, it is a way of gaining an understanding of the business side of journalism, as well as a way to meet people and get involved in the community.

The show, which will be hosted a member of the Intercom staff, will be on Dec. 17 at 7 p.m. The show will be attended by students and members of the community.

Math big issue at Deans Forum

By JOSE GALVAN

Concerns ranging from the lack of math for students to the closing of schools are being addressed by the institution. In time of concern, it is important to have a strong math department.

The supply list for the test requires soft lead pencils and some extra paper. People with their TASP test on hand will need to mail them in.

Smokers no-show; petition dropped

The petition to make smokers no-show for the test was dropped due to insurance issues. The college would not provide the supplies to the smokers.

People Speak Out

By Murray Getz, Becky Jacobs, Mack Sanmann, and Littlejohn

Many people are on the move as a result of the downturn in the local economy. Some are left trying to fill the gaps left behind by companies that have moved out of the area. Others are finding new jobs and new opportunities. Despite the challenges, many are determined to persevere and make the most of their circumstances.

The library is celebrating Black History Month by hosting a special event. The event will feature presentations by local historians and scholars.

Buddenhagen named foundation hero

By PATRICIA H. Hall Editor

Cecil Buddenhagen, a local businessman, has been named the Foundation Hero for his commitment to education. Buddenhagen has contributed to a variety of educational causes and has been a key leader in the community.

Co-ed softball practice

Softball players are practicing for the Softball Season, which begins in March. The team is working hard to improve their skills and prepare for the upcoming season.

Getting over heartache means not looking back

By ZOE GANZ

A belated happy Valentine's Day to those of you who have a date or have someone special to share your day with. To those of you who do not, please know that just because you don't have someone special to share your day with, doesn't mean you can't have a good time. You might want to look ahead and not spend the day looking back. This involves remembering that your first love might not have been the right one. You can look ahead and not spend the day looking back and make sure you choose your next relationship better with your next love. If one doesn't work out, you can always try again with a better partner. You don't want to spend the day looking back at past mistakes or lost love. You can look ahead and not spend the day looking back and make sure that your next relationship will work out.

Students who plagiarize lose more than grades

BY JOHN GALGAN

"The work that I do here is 100 percent significant. 1 don't do 25 percent of any job... I do it all or nothing..."

---

Working in the '90s honors work force

The Collegium of Maritime Fine Art Gallery located at 1628 -2nd St. in Galveston is exhibiting the work of the 25 and 30 working artists of the 90s. The exhibition opens March 17th and will be featured through April 1, 1995.

World renowned by its past five artists, the exhibit features the works of 25 artists from throughout the country who have made their mark on the world of art. The exhibit is divided by decades and will include works from both the 20th and 21st centuries.

The exhibit will also feature works by well-known artists such as Salvador Dali, Pablo Picasso, and Andy Warhol. The works will be displayed in a variety of mediums, including painting, sculpture, and photography.

The exhibit is open to the public and admission is free. For more information, call (713) 639-7531.

**Editorials/News**

**Spring enrollment drops imperceptibly**

By ROCK DUKE

Student Editor

The enrollment drop at Inter-Comm College seems to be imperceptible. The president of Inter-Comm is not bothered by the drop, according to President Brown. According to Inter-Comm President Brown, there was a decrease in enrollment from last year; however, this decrease is not noticeable.

"We're actually down 13 percent from last year," Brown said. "But we're still up from the year before that.

We feel that the drop is due to the economy, with students choosing to stay in their current positions instead of enrolling in college classes.

**SAB sponsors nacho-ordinary kickoff**

By MIKE URRBEC AND JR. MONTEZ Staff Writers

College of the Nationalрадиодевелоп-ment and staff are pleased to announce the kickoff of their annual Nacho-Ordinary event. The event, which is a fundraiser for the local food bank, will be held on the college campus on April 15th.

People are going to work hard to make this event a success, according to college President Brown. The president is looking forward to seeing the community come together to support this important cause.

**Math teacher lists steps to better scores**

By JOHN SMITH

Staff Writer

If you want to improve your math scores, here are some tips to help you:

1. Attend class regularly.
2. Complete homework assignments.
3. Review class notes and textbook material.
4. Seek help from a tutor or teacher if needed.
5. Practice with additional problems.

By following these steps, you can improve your understanding of the material and raise your scores.

**Panel discussion**

Continued from Page 1

It's a policy to have an opinion before lunch. In an article in the Inter-Comm College newspaper, "The Voice," an editorial was published that encouraged students to participate in panel discussions. The article stated that these discussions will help students develop critical thinking skills.

The panel discussion will take place on April 15th. The topic will be the impact of technology on society. The panelists include experts from various fields, including business, education, and politics.

**Library exhibit pays tribute to Jordan**

By LUCY WHITE

Staff Writer

The Library exhibit pays tribute to Barbara Jordan, who was a prominent speaker and politician. The exhibit includes photos, videos, and documents that highlight Jordan's contributions to society.

The exhibit begins Aug. 1 and is celebrated for several weeks during History Week. Barbara Jordan, who passed away in 2002, is remembered for her contributions to the civil rights movement and her fight for equality.

**Lughnasa festival beckons Irish sisters**

By ELIZABETH BROWN

Staff Writer

The Lughnasa festival is an annual event that celebrates Irish culture. The festival includes traditional Irish music, dance, and food.

The festival takes place on August 1st and is open to the public. If you're interested in learning more about Irish culture, this is a great opportunity to do so.

**Dear Editor**

By JANE DOE

Editor, Inter-Comm College

Dear Editor,

I am a mathematics student at Inter-Comm College, and I have noticed that my classmate is having difficulty understanding the material. I would like to offer some advice to help improve their understanding.

If you are not happy with your math teacher, don't complain about my teaching. I have always done my best to make sure that my students understand the material.

If you are not happy with your classmates, don't complain about my students. I have always tried to choose students who are capable of learning.

If you are not happy with your homework, don't complain about my assignments. I have always tried to make sure that my homework is challenging but not too difficult.

If you are not happy with your math course, don't complain about my teaching. I have always done my best to make sure that my students understand the material.

**Math problem**

I have seen a math problem that I can't solve. I have asked my teacher, but they don't have the answer either. What should I do?

If you are having trouble with a math problem, you can try the following steps:

1. Review the relevant material in your textbook.
2. Talk to your teacher or a tutor.
3. Try to solve the problem on your own, using the steps you've learned.
4. If you are still stuck, seek help from a peer or a professional.

By following these steps, you can solve the problem and improve your understanding of the material.
What’s Happening

Tour to explore Mexican culture

The Technical/Vocational Education Department is sponsoring a Mexican Study Tour, which will take place from March 4 to May 2. Students will study at the Academia HispanoAmericana, a 400-year-old village that is located 450 miles across the valley from COM. The tour will end with a trip to Leon, Mexico, where students will have the opportunity to visit a rugged chain of mountainous communities.

American Indians discuss ethnicity

American Indians, the federal government, and academics all have opinions on the idea of defining ethnicity in the New Millennium. This panel discussion will feature figures such as Dr. Martin Luther King Jr., Mahatma Gandhi, and Margaret Thatcher.

Barbara Jordan leaves legacy of hope and promise

Barbara Jordan, the first African American woman to hold a seat in Congress, leaves a legacy of hope and promise. She was a member of the New Democratic Club of Texas, the first Black political organization in the state.

Folk singer vocalizes America’s history

The remote village of Ballybeg in County Donegal, Ireland, becomes the backdrop for an evening of song and narration. The evening will feature the popular folk singer/historian, Charlie King.

People Speak Out

People are encouraged to speak out on the topics of New Multicultural Texas, Ohio State Football, and New Mexico. The event is open to the public.

English, math trailer courses offered in March

For the first time, the College of the Mainland is offering English and math trailer courses. The courses are designed to help students who are struggling in these areas. Classes will meet Monday through Thursday, from 3 to 5:05 p.m., beginning March 3 and ending May 2.

Award-winning play hits COM theater stage

The American Play of the Year, "The Overwhelming," will be performed at COM’s theater on Tuesday, March 2 at 7 p.m., Thursday, March 4 at 7 p.m., and Saturday, March 6 at 2 p.m.

What's Happening

Trail Blazer begins COM's history
By PATRICIA NILL

The first volume of the Trail Blazer was published on October 10, 1970, a year after the college was established. The Trail Blazer is the student newspaper of the Comal County Junior College

Professor of English, M. Lowery, said her goal is to make each issue better than the one before it, and she said the student editors and staff put their hearts into the paper each week.

Most of the ideas to improve the paper and returned to Trail Blazer begins COM's history

Stephen F. Austin University in Nacogdoches. The InterCOM administration. Despite the fact that no contests piece about or related fields. Michael

In 1977, the COM student newspaper, The InterCOM, was founded. It was created to provide a platform for students to express their opinions and ideas. The InterCOM served as a forum for discussion and debate, fostering a sense of community among the student body.

The first issue of The InterCOM was published in 1977. The paper was edited by Mary Jo Stiles, who was the first student to hold the position of editor-in-chief. The InterCOM quickly gained popularity among students and faculty, becoming a central source of information and discussion.

In the 1980s, The InterCOM expanded its coverage to include more diverse topics, reflecting the changing interests and concerns of the student body. The paper continued to evolve, adapting to the changing landscape of higher education and the world at large.

By far the favorite subject for pictures and stories was the ducks. The ducks were a popular feature of The InterCOM, and their presence was a recurring theme throughout the years.

The ducks integral part of COM campus

Ducks are a common sight on the COM campus, especially near the pond located near the library. They are a beloved part of the campus community and have become a symbol of the college's unique character.

The ducks have made a home on the COM campus, and their presence is a daily reminder of the natural beauty that surrounds the college. They are a source of joy and relaxation for students, faculty, and staff, and their interactions with visitors often become the subject of photos and stories.

The ducks have also become a point of interest for students, who enjoy watching them swim and observing their behavior. They are a symbol of the college's commitment to creating a welcoming and supportive environment for all members of the community.

People Speak Out

By JANICE HOLSTEIN, A. DAWSON

We asked students if they would like to see a broadcast of the college's basketball games on all-computer. The overwhelming response was yes! They said they would watch the games on TV, but they would prefer it if the games were broadcast on all-computer.

The students said they would watch the games if the college could provide a way to do so. They also said they would watch the games at home if the college didn't provide a way to do so.

Math/Science Team hosts open house

By BARBARA L. EILLS

The Math/Science Team hosts an open house for members of the college community. The team is comprised of faculty and students who are passionate about mathematics and the sciences.

The open house is an opportunity for the public to interact with the team members and learn more about their work. The team members are there to answer questions and share their expertise with visitors.

The open house is an opportunity for the public to interact with the team members and learn more about their work. The team members are there to answer questions and share their expertise with visitors.

Youth hit campus for Odyssey tournament

By PATRICIA NILL

The Odyssey tournament was held on campus for the first time in 1996. The tournament is a math competition that challenges students to solve complex math problems and puzzles.

The tournament is a popular event, attracting students from across the region. The tournament was a success, with many students participating and enjoying the challenge.

Ceramist, professor open art exhibit

By BARBARA L. EILLS

The gallery director, Dr. E. Rhame, hosted an open house to celebrate the opening of the ceramic art exhibit. The exhibit features works from various ceramists and is a vibrant display of the medium's potential for creativity and expression.

The exhibit is open to the public and is a showcase for the diverse styles and techniques of ceramists. Visitors are encouraged to explore the works and appreciate the artistry of the pieces.

Acoustic duo Settie rocks COM lawn Feb. 20

By JOE HALE

The acoustic duo Settie rock the lawn Feb. 20 at the University of Texas at Brownsville. The duo performed in an acoustic style, playing songs that included rock and roll hits.

Although Settie sang on key and in perfect pitch in the time show, they were performing in a cover of Janis Joplin's "Crazy." Despite the attendance being lower than expected, the performance was still well-received by the audience. The band moved into a cover of Melissa Etheridge's "Linger." The performance was a testament to the band's musical才华.

The government, which is responsible for the administration of the country, is responsible for maintaining the public order and ensuring the safety of the citizens. The government also has the authority to intervene in the lives of individuals, particularly in cases where the individual's actions threaten the public welfare.

What does all of this mean for the voter? When considering the candidates and issues for the upcoming election, it is important to think not only about the candidates' positions on the issues, but also about how their policies might affect you personally and your community. The government, after all, is there to serve you and to ensure that your needs are met. You can make a difference this year and go to the polls on Tuesday, November 3rd.
Courtroom drama Inherit the Wind opens April 11

By HELEN GETZ

You'll beg your kids, "Hey, mom, how about we go to Inherit the Wind?" Not because you think they'll enjoy it, but because you'll get to see Arlyn Getz, your daughter, and a whole bunch of COM students, play their parts in this drama about a trial in a small town.

Arlyn Getz, a student at COM, got her start in ballet at age seven. Her instructor, who was also her mother, decided to sign her up for a ballet class thinking it would be good for her. Little did they know it would lead to a career in the arts.

Getz, who is only 4 feet 10 inches tall, was asked to teach movement to the athletes at the University of Dayton, where she met her future husband, Larry Getz. The Getz's have two daughters, Trini and Manolo, both of whom have a talent for dance.

One day her instructor, who was also her mother, decided to sign her up for a ballet class thinking it would be good for her. Little did they know it would lead to a career in the arts.

Arlyn Getz, College of the Mainland's Commercial Arts Department head, has been teaching dance classes at the college for 20 years. She started out teaching a class for children and quickly realized that many of the students were talented dancers.

Getz told of the time Manolo injured his leg while performing a dance routine. Getz teaches dance classes at the college and is looking forward to seeing her students perform in Inherit the Wind.

Getz agreed with her friend, Martha Raye, when she said, "A career in the arts is a career in struggle." But for Arlyn Getz, it's all worth it to see her students perform.

"What I did not know was that COM police officer Larry Getz was also my husband," Arlyn Getz said. "We met at the University of Dayton, where he was a student. He asked me to teach movement to the athletes and we fell in love."

Getz is the proud mother of two daughters, Trini and Manolo, both of whom have a talent for dance. She met her husband, Larry Getz, while teaching at the university.

"Having children was a milestone. She told Murray, 'So many women today do not want a family. I had really never considered myself as a mother, but when I had children, I knew I was meant to be a mother.'"

"One of the things that Murray has taught us is that God is always looking for the person or pet to return. We are always looking for the person or pet to return."

"Sometimes you have to go through a lot of different things to find out what you're meant to be. My daughter, who was grown she owned a dog and then a cat, was a child."

"The elevator doesn't go all the way to the top and they continued to perform."

"They played hotels, restaurants, nightclubs and legitimate theater, such as the Mauretania (sister ship to the Lusitania). When they were at the Scopes, a school in the country, they were back on their feet, and they continued to perform."
**Features**

**COM police officer pursues dream**

**By KAREN L. JENSEN**

**Bridgeclipping**

Clifton began his career as a social worker in December 1993, just two weeks after he graduated. Dr. Caylor didn't have a usual routine for 10 years before he decided to pursue law enforcement career.

Although he enjoyed serving as a military police officer, he has not ruled out teaching in the future.

**Professor stresses rehabilitation, not punishment**

**By JACQUIE BACHMAN**

When Social Work Professor Robert Caylor began teaching at COM in December 1993, he was excited to return to his roots. Then he became interested in counseling.

Dr. Caylor has a unique perspective on rehabilitation and punishment, and he emphasizes the importance of both in society.

**Spring Fine Arts Festival set April 25**

**By CHERYL D. KNOWLES**

The Spring Fine Arts Festival will take place on April 25 from 10 a.m. to 6 p.m. on theCOM campus. The festival will feature a variety of events, including music performances and art exhibits.

The Math forum will provide an opportunity for students to discuss math-related issues and grades, with the goal of improving understanding and performance in the subject.

**Course teaches use of guns for protection, safety**

**By SCOTT L. MILLER**

Students will find this course to be a combination of instruction and practice. They will learn about personal protection and the safe use of firearms.

The course will include instruction in personal protection and safety, with a focus on proper handgun stance and trigger control.
from vessels to history

First, Wilson spent time aboard two submarines, the USS Woodrow in 1991 going on to complete his bachelor's degree.

Charles Hamilton, Barnes has the overall responsibility of receiving recruits. Along with one other sailor, Petty Officer Jennifer, 7, is a student at COM pursuing a degree in cosmetology. Many are in management positions with existing licenses. Of those, approximately 85 percent have any experience in the program. However, many of students are partially completed work and Schelli Slocumb on COM photography instructor Ann Stautberg, building and the master of fine arts from the University of Dallas. Stautberg's enthusiasm and dedication to the photographic community, such as women's issues. She is also a member of the Chicago Board of Photography, and Schelli Slocumb on InterCOM, March 1996, Page 2.
Marathoner loves to run, run, run

By MURRAY GETZ

Sports/Features Editor

Pulsipher, known as "Dot," not only competed in the prestigious Houston Tenneco Marathon in February. He not only competed in the prestigious marathon, he ran it in 2:43:49, taking fourth in the under 40 age group. He said some asked why he ran four hours and 43 minutes. "I think it's not a three-mile runner. I'm a big mileage runner," Pulsipher said. "I'm not a 10k runner. I'm a marathon runner."

Pulsipher, born in Guam while his dad was in the service, moved to this area when his dad was stationed at Offutt Air Force Base. He has participated in most of the area Fun Runs, including the COM Turkey Trot and the Moonlight Marathon. "I don't have any goals. I just run a lot," Pulsipher said.

"I'm not a three-mile runner. I'm a big mileage runner," Pulsipher said. "I'm not a 10k runner. I'm a marathon runner."

"I started running a long time ago," Pulsipher said. "I started running in high school. I started running again in college. I think I've been running throughout my whole life."

Pulsipher, now a 26-year-old, has been running in high school and college. He has run in high school for four years and in college for four years. He has run in the Houston Marathon for four years and the New York Marathon for four years. He has run in the Atlanta Marathon for four years and the Chicago Marathon for four years. He has run in the Boston Marathon for four years and the Marshall Marathon for four years.

"I don't want to be on the same side of the stands where the people are. I want to be on the same side of the stands where the people are," Pulsipher said. "I want to be on the same side of the stands where the people are."
Cosmetology services

By BART NABORS

If you're not exactly a hair stylist, maybe you'd like to be. If that's the case, then the Houston Community College's Cosmetology 101 class is just for you. The class is held at the Houston Community College's main campus on Wednesday nights from 6:00 to 9:00 p.m. The course is designed to provide the student with a basic understanding of the cosmetology field and to prepare them for more advanced courses in cosmetology.

The following are some highlights of the course:

- Introduction to the cosmetology field
- Basic grooming techniques
- Hairdressing
- Makeup application
- Salon management
- Customer service
- Safety and sanitation

Cost: $500.00

For more information, please contact the Houston Community College's Cosmetology Department at (713) 242-3521.

Selena fan honors memory, attends casting call

By JEFFREY GETZ

In Memory of Selena

Selena's fans were out in force when they attended the casting call for the Warner Brothers film about the late singer at the Mercado in San Antonio on Wednesday, March 22, 1995.

Fans of Selena, including some who were related to her, lined up to try out for roles in the film. The casting call lasted for over five hours, and hundreds of fans showed up, including some who drove from as far away as Dallas.

Fan club members were also present, and they brought along Selena's two children, who were the focus of the casting call.

Shutterbugs see light; learn photo techniques

By JAY MAEDOLE

It's a new day at the Houston Community College, where the new photography studio is open for business. The studio is located in the new Fine Arts building and is open to all students.

The studio is equipped with the latest in photography equipment, including a digital camera and lighting equipment. The studio is open from 8:00 a.m. to 10:00 p.m. Monday through Friday, and 8:00 a.m. to 6:00 p.m. on weekends.

For more information, please contact the Houston Community College's Fine Arts Department at (713) 242-3521.

**COM police officer pursues dream**

When 22-year-old Officer Charlie Jackson began his first day on the College of the Mainland campus, he knew exactly what he wanted to be: a police officer.

Jackson's dream began when he was a student at West Virginia State College, studying criminal justice. He decided to join the police force, and after graduation, he became a police officer at Alvin High School in Alvin, Texas.

Jackson's dream was to eventually become a police officer at COM, and that dream came true when he was hired in the Fall of 2015.

Jackson's role at COM is mainly focused on traffic enforcement and crowd control, but he also assists with other tasks as needed.

Jackson's goal is to continue his education and become a police officer at a larger university, where he can have more opportunities to help people and make a difference in their lives.

**Spring Fine Arts Festival set April 25**

The College of the Mainland will host the Spring Fine Arts Festival on April 25. The festival will feature a variety of artistic displays and performances, including music, art, and theater.

The festival will begin at 10 a.m. and will continue throughout the day. Attendees can expect to see a range of talent on display, from local artists and musicians to students and faculty members.

The festival is free to attend and open to the public.

**Math issues, grades discussed at forum**

Mathematics educators and students discussed the challenges of teaching math and improving student performance at a forum held on April 20.

The forum was attended by over 100 educators and students, who discussed a range of topics, including curriculum development, pedagogical strategies, and student engagement.

The panelists included mathematicians, educators, and administrators from a variety of educational institutions.

**Course teaches use of guns for protection, safety**

The College of the Mainland is offering a new course that teaches the use of guns for protection and safety.

The course, titled "Gun Safety and Protection," is designed for students who are interested in learning about the safe and effective use of firearms.

The course will cover topics such as gun safety, laws and regulations, and defensive strategies for personal protection.

The course will be taught by a certified firearms instructor and will include both theoretical and practical components.

**Professor stresses rehabilitation, not punishment**

Dr. Robyn Giles, a professor at COM, stresses the importance of rehabilitation over punishment in the criminal justice system.

Giles believes that the focus should be on helping offenders turn their lives around and become productive members of society, rather than simply punishing them.

Giles' approach is based on the belief that rehabilitation is more effective than punishment in reducing recidivism and promoting public safety.

Giles teaches several courses, including criminal justice, sociology, and psychology, and she is passionate about teaching her students about the complexities of the criminal justice system.
Pets need quality time for better understanding

Comedians have a unique way of drawing the lines between past and present, between reality and fantasy. They have the ability to make us laugh and think about our lives in new ways. This is especially true during these days when so many of us are under stress and uncertainty.

I have been following the careers of some of the best comedians in the business for many years. I have learned so much from them about how to deal with difficult situations and how to see the humor in life. I have also learned that comedians are not just entertainers; they are also wise and compassionate individuals who care deeply about their families, friends, and communities.

In the next few weeks, I will be interviewing some of the most famous comedians in the world. I will be asking them about their lives, their families, and their struggles. I will also be asking them about their careers and how they have grown as performers over the years.

I am excited to share these interviews with you. I believe that they will be fascinating and inspiring. I hope that you will enjoy them as much as I have.

My name is Susan Polikoff, and I am the host of the new radio show called "The Great American Comedy Show." Each week, I will be featuring interviews with some of the best comedians in the industry. I am honored to have the opportunity to work with such talented performers.

Thank you for listening, and I look forward to sharing these interviews with you.

Sincerely,
Susan Polikoff

The Trail Blazer begins COM's history

The Trail Blazer is the student newspaper of College of the Mainland. It has been published since the college opened on March 23, 1968. The first edition was published in 1968 and since then, the newspaper has been published weekly. It is a four-page publication that includes news, sports, features, and classified ads. The Trail Blazer is staffed by students and faculty members.

Ducks integral part of COM campus

By BARBARA LEE

The ducks on the COM campus are a part of the natural environment and add to the beauty of the campus. They are often seen in the pond located on campus, and they are a popular subject for photography and art.

Ceramist, professor open art exhibit

By DELIA WINGERT

A ceramist and professor opened an art exhibit on campus. The exhibit featured works of art created by the professor and other artists. The exhibit was held in the Art Gallery located on campus.

Excited award winners look to future

By PATRICIA MILL, INTERCOM editor

Former InterCOM editor and University in the News associate editor Astrid H. Lowery said she was pleased to see her paper win a TIPA award. "I am extremely proud of the piece. I really thought about the award when my mom told me. .. Torres added."

The TIPA award for outstanding newspaper comes in categories of general excellence, arts, features, reporter of the year, and editor. Foster was awarded the general excellence category. The TIPA award is given to newspapers that best demonstrate quality of writing, photography, and overall professionalism.

"I was proud of the piece because it was my first time writing for InterCOM. I wanted to write an article that showed the vastness of the world and the different cultures that exist throughout the globe. I hope that my piece will inspire others to learn more about the world and its people." Foster said.

InterCOM receives three TIPA awards

By KELLY MCVICKER

The TIPA award is a prestigious national award that recognizes the highest level of excellence in student newspapering. InterCOM was awarded three TIPA awards this year:

- Best Newspaper
- Best Article
- Best Feature

"I am extremely proud of InterCOM's accomplishments this year," Foster said. "I am glad that our hard work has been recognized. I hope that these awards will inspire others to work harder and strive for excellence."

Trial of the century brought to life on COM stage

By MURRAY GETZ

Staff Reporter

The trial of the century was celebrated with a production of "The Wind," the trial of the century at the College of the Mainland Theatre in February. It was a production that was eight years in the making, but it was worth it.

The production was directed by the theater's managing editor, Lewis. He spent eight years planning and directing the production, but it was all worth it.

"It was a long time in the making," Lewis said. "But it was worth it. I'm proud of what we accomplished."
Guitar instructor shares love of music

TRISH SPKEMAN

It was all the rage for the 1960s: rock and roll guitar. Students scurried to find the teacher to learn the art of strumming a good tune. Guitar instructor Cliff Moore, who teaches music at the Community College of the Mainland since 1985, has been teaching guitar for 33 years. Moore, who is a former band director at Clear Creek High School, and now teaches at COM, feels lucky to have a job that lets him do what he loves.

"It is my way of entertaining the students," Moore said. "It's very rewarding to me. It's something I enjoy doing." Moore is one of the best guitar instructors in Texas. He has taught guitar in many schools, including the College of the Mainland, where he is the department chairman. He said he enjoys teaching guitar because he enjoys meeting new people and helping them learn the instrument. He is happy to see his students improve their playing.

"I love seeing their faces when they play a good song," Moore said. "It's a great feeling to me. I enjoy teaching guitar because I enjoy helping people learn the instrument."

Trial of the century brought to life on COM stage

MIKE BRAEDT

The classic courtroom drama, written by Jerome Conan, was performed at the Community College of the Mainland. The drama was directed by Thom Guthrie, and John Moore, who taught drama at the college, designed the sets. The production was a huge success, and the set designs were excellent. The sets were designed by the college's students, and they were a huge success. The sets were made of cardboard, wood, and other materials, and they were very effective. The production was a huge success, and the set designs were excellent. The sets were designed by the college's students, and they were a huge success.

"I love the set designs," Moore said. "I love seeing the students work on them. It's a great feeling to me."

InterCOM managing editor Lewis to graduate

By LOUIS LEWIS

The College of the Mainland (COM) will graduate its first student this year. The student is InterCOM managing editor Lewis, who has been with the college since 1995. Lewis is the first student to graduate from the college's journalism program.

"I am very proud of Lewis," said Dr. Robert Pope, dean of the college. "He has been a great asset to the college and to the community. He has been a great help to me and the rest of the staff.

"Lewis is a very talented student," said Dr. Pope. "He is a hard worker, and he has made the most of his time here. He has been a great help to me and the rest of the staff.

Connect offers bus service to COM

By LOUISE LEWIS

The College of the Mainland (COM) has added a bus service to its campus. The service is designed to help students get to and from the campus, and it is free for COM students. The bus will run from the Mainland Mall to the campus, and it will stop at the Mainland Mall, the College of the Mainland, and the University of St. Thomas.

"The bus service is a great addition to our campus," said Dr. Robert Pope, dean of the college. "It will help students get to and from the campus, and it will help us to serve our students better."

Although there was no winner or best runner-up announced Friday, the Fine Arts Department honored several students. The winners were chosen based on their participation in the festival and the quality of work displayed. The festival included poetry, art, and music. The awards were given for Martinez’s work, which was featured in the festival, and for her artwork. She said she worked hard to be at the festival, and that she was glad to be there. She also said that she would like to continue drawing until she is 189 years old.
